CUSTOM WIDTHS AVAILABLE UPON REQUEST

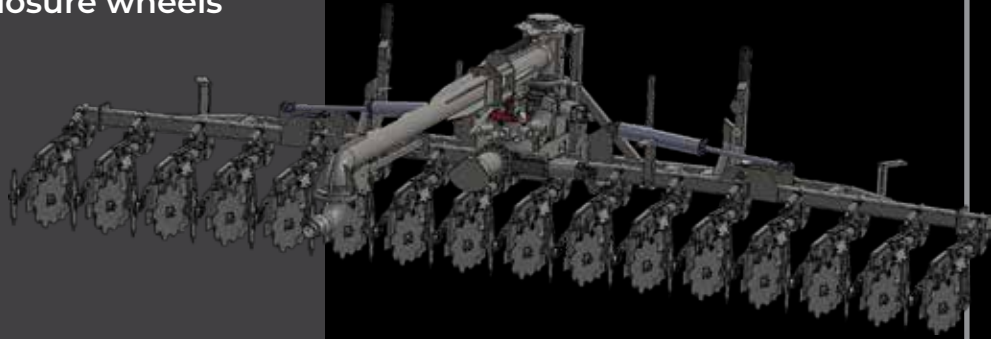

RBI ZML

ADVANTAGES

The Red Viper Unit manure spreader was designed for both low and high volume gallon users. The Red Viper is capable of covering 20,000 plus GPA, while doing it with very little disturbance to the soil. Our individual closer disc helps with clogging in wet and heavy residue soil. Our goal is to inject and cover your manure for maximum nutrient intake.

FEATURES

- Rock guard sweep
- Individual flexing closer disc
- Adjustable down pressure on closure wheels
- Individual row swivel
- 10" of hydro flex travel
- Heavy duty greaseless bearing
- Spacing: 24" or 30"

AVAILABLE IN 20', 24', 28', 32' AND 36' WIDTHS

DIETRICH
