

PIPELINE SYSTEM

RBRAUN INC.
St. Nazianz, WI

“ ALL YOU HAVE TO DO IS ASK! ”

Designed & Manufactured by R Braun Inc.

PIPELINE SYSTEM

As the dairy industry continues to grow and change, the demand to develop efficient means of nutrient application processes grow! R Braun Inc's Pipeline System allows customers to efficiently pump manure where they want, when they want. This gives dairy owners and their application teams the peace of mind that their nutrients are getting to the field in a safe, leak-proof process.

FEATURES

- Durable high-density polyethylene pipe
- Stainless steel riser construction, built above ground
- Riser assemblies built to work as pig launch/booster pump stations

ADVANTAGES

- Pump slurry under growing crops
- Minimize fuel requirements for pumping
- Minimize manure trucking
- Great return on investment
- Flexible and leak-proof fused joints
- Durable & UV resistant design
- Anti-corrosive properties
- Customized to meet customer's needs

WHY HDPE?

R Braun Inc. has elected to use High Density Polyethylene fused pipe for the pipeline system due to quality and durability. HDPE pipe is a proven performer above ground, on the surface, below ground and even under water. It can transport drinking water or some of the most hazardous waste materials safely and without leakage. These attributes make HDPE pipe a great solution for almost any method, specifically R Braun Inc's manure pipeline system.

FEATURES

- Chemical & abrasion resistant
- Long term performance in demanding conditions
- Flexible & leak free joints
- Tolerance to variable operating conditions
- Exceptional toughness
- Saves considerable time & money
- Superior flow characteristics
- No damaging effects from freezing & thawing

Complete in-house design & install done by R Braun Inc., however, we value industry partnerships and are willing to work with your sub-contractors to get the job done.

PIPELINE ENHANCEMENTS

R Braun Inc.'s pipeline system paired with our top-notch dragline application equipment make a perfect combination for a smooth application season! From our Mobliestar™ pump control with auto-throttle line (pipeline) protection to multiple applicator options off the end of your pipeline system, we have you covered. Call today to discuss what R Braun Inc.'s manure application systems can do to improve your operations, bottom line is "All you have to do is ask!"
